

Viswanath Balla

Hyderabad, Telangana, India

Mobile.No: 8500647129 | viswanathballa1420@gmail.com | www.linkedin.com/in/viswanath-balla-574047344 | <https://github.com/Viswanath-Balla>

Summary

Motivated undergraduate student with extraordinary communication, presentation and leadership skills, and strong academic foundation in Machine Learning and hands-on experience by developing 2 projects. Possesses good problem-solving skills, technical aptitude, and adaptable to new technologies.

Technical Skills

[Java](#) [Python](#) [C](#)

[Machine Learning](#) [Scikit-learn](#)

[HTML](#) [CSS](#) [JavaScript](#) [FastAPI](#)

[DBMS](#) [PostgreSQL](#) [MySQL](#)

[Data Structures and Algorithms](#) [Operating Systems](#)

[Object Oriented Programming](#) [Computer Networks](#)

[Git](#) [GitHub](#) [Jupyter Notebook](#) [VS Code](#)

Education

Bachelor of Technology (B. Tech) in Computer Science and Engineering (AI & ML)

Jawaharlal Nehru Technological University, Hyderabad

2023 – 2027 | **CGPA: 8.4/10**

Projects

Customer Churn Prediction

Python, Scikit-learn, Pandas, Numpy

- Designed and implemented a machine learning model using the Random Forest ensemble learning technique to efficiently predict customer churn using a dataset with 1,000+ customer records.
- Performed data preprocessing and feature engineering to improve data quality and model interpretability
- Evaluated 3 machine learning models and achieved recall score of 81% using Random Forest and engineered proper features that help in properly identifying high-risk customers.
- Accurately identified high-risk customers in real life scenarios who are prone to churning.

Web Application | Academic Project (2nd Year, 2nd Semester)

Python, Flask, HTML, CSS, Data Visualization

- Developed a Flask-based web application that allows students to view their academic performance through interactive graphs and pie charts for easy visualization.
- Students can calculate marks they must score in upcoming exams to maintain their CGPA.
- Implemented functionality for professors to upload student marks based on their department, year, branch and semester with user-friendly UI.
- The marks uploaded by professor are dynamically processed by our model and showcased to the respective students.

Certifications

- SQL(Intermediate) – HackerRank, Credential ID: 7E0A243C0E91
- Python (Basic) – HackerRank, Credential ID: 8DE30153728A
